Full Day Khao Lak Expedition

Please note that from 01.November 2018 we change all our elephant programs. We will support elephant bathing only (no riding). The elephant camps we using are certified by animal welfare organizations. Please allow us a bit time for changing texts and pictures on our website and brochure. Thank you for understanding.

You want to find out what Khao Lak and its surroundings have to offer, but on the same hand have some time to simply relax? In that case, our Nature Safari is exactly what you are searching for. Here you have everything included. We will take you to a waterfall, temple, turtle conservation Centre Tsunami Memorial Police Boat 813 and lots of fun on the water and wild as well as protected animals await you.

Visit the Tsunami Memorial boat 813, a Thai military boat that was brought by the wave into the main land. Learn about the catastrophe that happened in 2004.

Refresh yourself with a ride on the most ancient Thai transportation on the river, bamboo rafts. Be attentive to your paddler boy, he might show you wild animals that sleep along the river above you on the tree branches as snakes, monkeys, spiders, monitor lizards etc.

Following, you might be curious about the **Queen Turtle conservation Centre project**. We then bring you to the military area, where the turtles are protected and taking care of before being released into the wild.

Use your time to relax close to a refreshing waterfall and have delicious Thai lunch to recover your energies.

After lunch, we will bring you to a traditional temple for a small introduction about Buddhism and you might want to try the Chinese prophecy and few other rituals.

Embedded in a tropical nature you will have the great experience to have a bath with an elephant. **This adventurous elephant experience will take about 30 min.** Please note we will not ride on elephant.

We designed a colourful program to show you the highlights of Khao Lak. To offer you adventure and relaxation all at once To make it one of your best days here in southern Thailand
